# OP20W1/TM TRUCK VALVE

## Features:

- ✓ High tensile cast iron construction.
- ✓ 1.1/16" UNO porting.
- ✓ Self contained variable relief valve.
- ✓ High flow spool.
- ✓ Corrosion resistant spool.
- ✓ Air actuated.

## Benefits:

- ✓ Custom build capabilities, to suit various options.
- ✓ High flow spool creates fast cycle times and efficient tipping operation
- ✓ UNO porting prevents distortion and leakage.
- ✓ High working pressure for power and performance.

## Specifications:

- ✓ All valve bodies precision honed.
- ✓ Open centre circuit.
- ✓ Maximum working pressure 20.68 MPa (3000 psi).
- ✓ Relief valve adjustment range 4.14-20.68 MPa (600-3000psi).
